## Data: This report provides

- Frequency distribution of student responses to individual questions
- Statistical tables with mean and median values of student responses
- Student comments to open questions
- Overall response rates; and response counts for each question
- See [.Making Sense of Course Evaluations and Midterm Feedback from Students: A Quick Guide for Instructors](#) for information on interpreting the data, and [Glossary-Quick Review of Statistics for Interpreting Course Feedback Results](#)

## Notes:

Contact the college's course evaluation coordinator, Doug Juneau, if you have questions. This instructor report is part of the college's initial pilot in Blue.

## Does Not Apply/NA :

In questions with a "Does Not Apply" choice, the NA count is shown in the frequency graphs but is NOT included in any statistical analysis.

## Response thresholds to protect student confidentiality:

If fewer than three (3) students respond to your course evaluation, an Instructor Quick Report is not generated.

## Multiple sections:

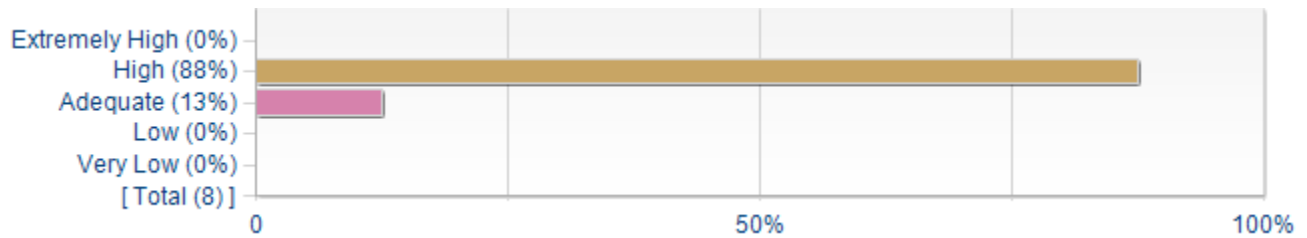

If a course has multiple sections, each section has a separate Instructor Quick Report.

## Team-taught courses:

Each instructor receives results only for themselves as instructor and for all other questions about the course or non-instructor-specific topics.

## What are the strengths of Romain Chareyron as an instructor?

### Comment

good organization with the class and the website helped a lot by providing useful tools and all the in class worksheets helped to have to look over

Romain was always available to help me with a paper when I asked to set up an appointment with him, and he was prompt when answering my emails.

I like Professor Chareyron as a professor, but it would help me if he changed some of his teaching techniques. I am a very visual learner so looking at worksheets and practicing different verb tenses helps me. The books really didn't help me in my learning that we used this year, but worksheets and going over the grammar and then practicing them in our compositions is what helped me develop my skills.

He really tries to reach out to students who are struggling. Is able to explain difficult concepts in multiple ways to reach a variety of students.

He understands students and any dilemmas they may come up with. He was helpful whenever asked.

## Give one or two specific and reasonable things the instructor, Romain Chareyron, could do to improve his/her teaching?

### Comment

not really?

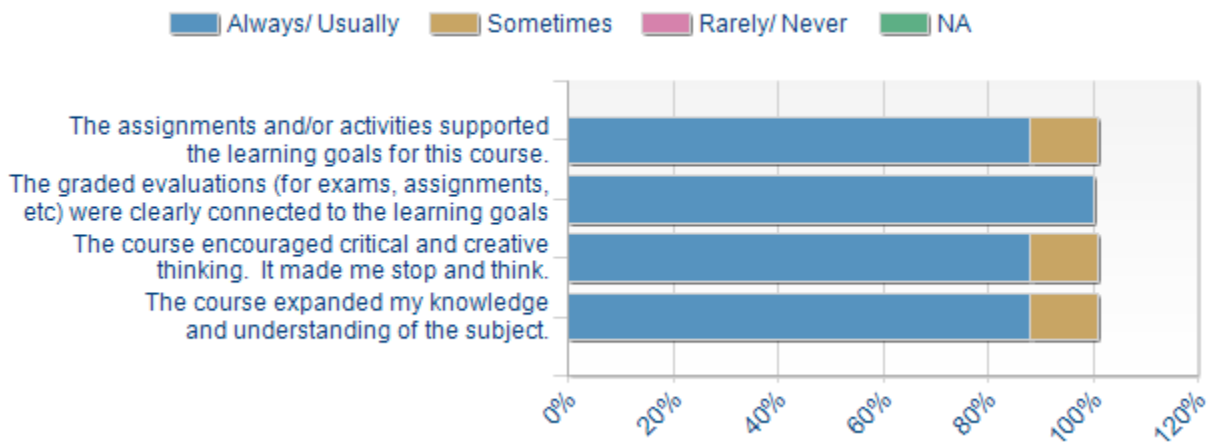

Personally I think I would have liked to talk about the homework more in class rather than getting a sheet with all the answers.

1. He could give more opportunities to correct the final writing piece as this may be the first time students will have written this long of a french piece (i.e. 3 times to submit the essay, if needed, rather than only 2).

### Comment

I was a bit lost at times

The worksheets/ helpers sheets helped me learn a lot.

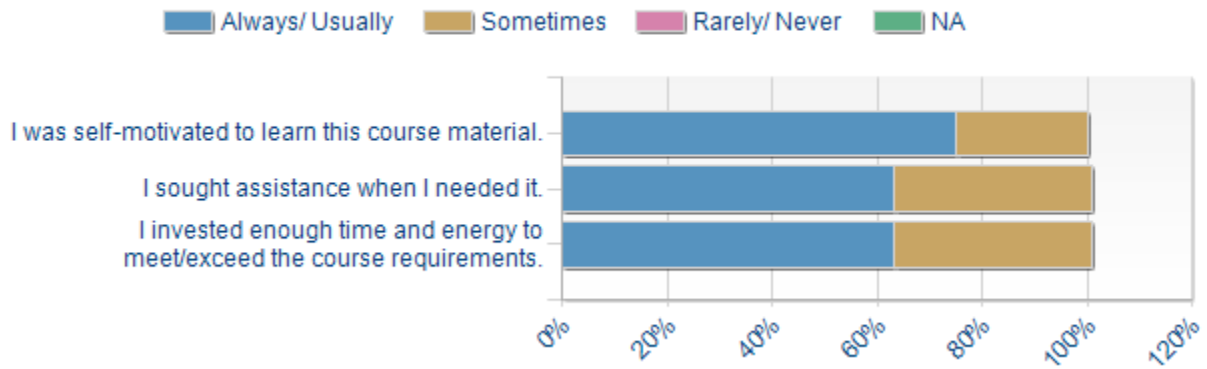

I did enjoy the practice for writing and grammar, but again I wish we would have gone over the grammar worksheets more or done more practice with worksheets because those always help me understand the grammar use better. We would get assignments and then would never go over them so there was no point in completing them sometimes. I enjoyed our time in the lab, I think that contributed to my improvement in grammar and writing skills.

## What else could you have done, or done differently, to increase your learning in this class?

### Comment

I would have probably tried harder to proof read my work but i felt unconfident with correcting them

Taken better notes

I always took time to do the assignments or worksheets for grammar practice, but we never went over them. If we went over these worksheets and corrected them and answered questions it would have helped me learn and understand the grammar better then just doing it and not knowing if it was ever correct since we did not always go over the worksheets.

I would have gone to office hours for more support with learning the grammar and how my learning style affects my success in the class.

Dedicated more time to the material whether it was required or not.
