You are very good.

Great Job! Thanks for the semester.

This class was hard but I learned a lot more grammar this semester.

Very good instructor.

I believe overall he did a good job teaching the class. I liked the activities he would have for us. It really helped grasp the concept more.

COURSE EVALUATION Comments

I love this class! I love discussing the films in French and learning about French cinema. 10/10 would recommend.

This was a great class. I learned a lot and really enjoyed the material. He was a great teacher and was always able to help. This was my favorite French class and the best French professor I have had throughout my four years studying French at WSU.

Feedback on assignments was helpful and meaningful. Content of class was interesting. Sometimes when you asked a question I think people needed more time to think about their answers and about how to say them in French. Thanks for your encouraging attitude that made it safe to speak. Oh, also I think it would help class conversation if after we watched a movie you would post some questions for us to have prepared for the next day. Thanks for a great class!

Overall it was a wonderful class. I love learning about French film ever since I took French film class last semester. The class was very, very organized. The lessons and objectives were clearly planned out and mentioned to the students. The topic could have been dull but the instructor was very well informed and exciting on the topic. I loved this class and it was seriously a pleasure taking this class. I think I speak for the whole class by saying thank you for making this course exciting and fun!

Loved this class!

Fantastic professor! I wish every professor was like Romain Chareyron.

I enjoyed this class very much and learned a lot about French film.
